

We Will Search the Globe for Just the Right Linguist

CETRA's GlobalSearch™ Recruitment Program employs our experience, expertise and network of resources to meet the diversity, technology, and cultural requirements of your project – no matter how large or small. Although CETRA can easily translate hundreds of languages, your project may require one in which we have not yet worked. CETRA's GlobalSearch™ Recruitment Program combines resources, contacts and technology to find the perfect fit for your project. We have successfully located qualified translators and interpreters all over the world.

In a sense, every translation or interpreting assignment represents a link to the country and culture of the translator or interpreter who completed it. Therefore, we view the talented linguists who handle this work as ambassadors to the global community. Their professionalism and commitment to high standards makes us proud to partner with them. Our database of CETRA Ambassadors™ is 5,000 strong and growing; it represents a wide diversity of languages, locations, certifications, past experience and areas of expertise. We are looking forward to finding the right CETRA Ambassador™ for you!

CETRA promises that:

- Through our GlobalSearch™ Recruitment Program, we will explore unique and creative ways to find the right linguist for your needs.
- The CETRA Ambassador™ we provide has the qualifications, background and real-world experience to match your project.
- The perfect CETRA Ambassador™, with native language fluency, specific dialect, subject matter expertise and cultural knowledge, is just one feature of the services that we can provide to give you a remarkable experience from day one.
